

Statement of Purpose

Ketkar Moulik

Application for the post of Vice-Captain

Background-

I have been an integral part of IITBHU chess club since my first year. I have also been one of the most active core members of the club and have contributed to content and hosting/providing commentary of tournaments for online YouTube streams on our chess channel. I have also been amongst the top players of this club, and also competed in many events such as AICL, Spardha just to name a few.

Vision-

If given the opportunity of being the vice captain of the club, I plan to improve the club in the following ways-

1. Improve the overall quality of upcoming members of the club
2. Involve and grow more players in the chess family that are as passionate about this art/sport as we and our seniors have been.
3. Restart our YouTube channel and provide regular content for viewers to enjoy. (This is also how we can improve our monetary status, in future)
4. Get into touch with more clubs and arrange more of friendly tournaments (both online and offline) , this will also develop new relations and help the club grow
5. Most importantly, try to get good coaches for the club, and accessories by **demanding** our needs to the Gymkhana

I have a very good public relations with not just colleagues from my year, but all years across (including first yearites) and thus can connect and cooperate with them very smoothly for the betterment of club.

Furthermore,I also have a sweet tongue and so can get things done by others.

I admit to not being the best of the players, but I feel I can most definitely help the club grow and prosper as my seniors had visioned. I will do my best and put my efforts to make sure the vision becomes a reality. Let the legacy of our club put forward even stronger benchmark in the coming future.

All hail the Petrosian's Legacy!
